Honorary Committee

Vítor Aleixo President Municipalty of Loulé

Loulé is a Municipality that offers natural and climatic conditions for sports, high-quality infrastructures for several sporting disciplines, as well as an international recognition as a dynamic and eclectic territory. Talking about sports in Loulé means talking about major sports events. Hosting in 2023 the MTBO European Champion-ships, the municipality of Loulé is participating in another great inter-national sport event, being also associated with the most important competition of this specific sporting discipline.

For Loulé it's an opportunity to promote the diversity of the territory and the variety of its natural resources. The beauty of the landscapes of the interior will certainly impress the athletes and teams that will come to Loulé for the Championships, giving an important attention to the interior areas, as Barrocal and Serra.

To develop the economy of the interior, it's necessary to promote its potential to outsiders, as its cultural richness, its traditions, the quality of its products and food. Loulé has several natural areas environmentally classified, footpaths, fountains, small typical villages, a rich fauna and flora and a kind and welcoming community, factors that have been essential to the development of nature tourism in the municipality.

So, it's a great honour for the municipality to be associated to the Portuguese Orienteering Federation (FPO) and I greet all athletes, teams and families who come to Loulé for the MTBO.

Welcome to Loulé!

Carlos Garcia FPO President

On behalf of the Portuguese Orienteering Federation, I wish all teams a big "Welcome" to the European MTB Orienteering Championship 2023 in Loulé – Portugal – 25th to 29th of April 2023.

2022 was a memorable year for Portugal by organizing several events, among others the JWOC 2022. The quality of our organization is well recognized and the International Orienteering Federation, once again, entrusted us with a great event like this European Championship.

The event will take place in Loulé, a friendly city in our Algarve region, in the south of the country, which offers fascinating tourist attractions, a traditional Portuguese market and a historic centre.

We believe that the technical quality of the land that will be used and the organizational quality of all the volunteers involved will, certainly offer a successful event that will be of general satisfaction.

We are waiting for you.

16 Starting Order

CX80 WCUP & EMTBOC

For the Sprint and Middle Distance, the starting order must be drawn in four starting groups. Competitors ranked 1–15 in the IOF World Ranking list as published 10 days before the event are placed in group 4, competitors ranked 16-30 are placed in group 3, competitors ranked 31-45 are placed in group 2. Within every group the starting order is drawn at random.

For Middle Distance and Sprint the competitors from the same Federation must not start consecutively. If they are drawn to start consecutively, the next competitor drawn must be inserted between them. If this happens at the end of the draw or at the end of a starting group, the competitor before them must be inserted between them.

(WC) The MTBOC has decided to issue a Wild Card for the EMTBOC 2023 to Kaarina Nurminen, FIN, who was a Junior until last year. This decision was not taken unanimously because the Wild Card is not primarily meant for Juniors. However, Kaarina won all individual competitions at last year's JWMTBOC, and she also had excellent results at the 3rd World Cup round 2022 when she was given a Wild Card as well. It goes without saying that the Finnish MTBOC member did not vote and did not participate in the discussions either.

For the mass start, the order of competitors in the start rows is determined by the IOF World Ranking list as published 10 days before the event (see list above). The reigning World Champions, who are always given the first start position, are also the current leaders of the World Ranking. Kaarina Nurminen (Wild Card) will be on position 8 in starting group 4.

For the mixed relay, the order of competitors in the start rows (and their start numbers) is determined by the results of the EMTBOC 2022. Those not being placed in the EMTBOC 2022 are given the subsequent start numbers in alphabetical order of Federation abbreviation.

All information about participation in the different competitions must be entered in Eventor. In case of problems with Eventor, please send an email to:

<u>it@mtbo2023.fpo.pt</u>. This information should be updated till 15h00 of the day before the date that the competition takes place – April 25th, Middle Distance, April 26th, Mass Start, April 27th, Sprint and April 28th, Mixed Relay. Help on how to enter this information into Eventor can be found in section 33 Eventor Guide on Submitting Start Groups and Relay Teams.

EJMTBOC & EYMTBOC

For Middle Distance, Long Distance and Sprint the starting order must be drawn at random. The draw must be made in three starting groups (1-early, 2-middle and 3-late). Team officials must allocate their athletes to starting groups in IOF Eventor.

For Middle Distance, Long Distance and Sprint the competitors from the same Federation must not start consecutively. If they are drawn to start consecutively, the next competitor drawn must be inserted between them. If this happens at the end of the draw or at the end of a starting group, the competitor before them must be inserted between them.

For the relay, the order of competitors in the start rows (and their start numbers) is determined by the results of the EJMTBOC 2022 resp. EYMTBOC 2022. Those not being placed in the EJYMTBOC 2022 are given the subsequent start numbers in alphabetical order of Federation abbreviation.

All information about participation in the different competitions must be entered in Eventor. In case of problems with Eventor, please send an email to:

Bulletin 4 – Updated 25/04/2023

Start procedure for Middle distance, Long distance and Sprint

SIAC-clear is found outside start boxes.

There are 3 start boxes, in which you enter 3 minutes before time start.

In box 1 you have the SIAC-check.

In box 2 you have the SIAC-tested.

In box 3 you take your map (it is your responsibility to take the correct map).

After time start you have to follow a mandatory route to the start point which is marked by a flag in the terrain.

Start procedure for Mass Start, Mixed Relay and Relay

The athletes entering to the Start area should perform the following procedures:

- SIAC-clear.
- SIAC-check.
- SIAC-test.

- First leg:

Competitor stays on his Bike, with at least one foot on the ground, until start signal.

The Competitor will receive the Map when arriving to his position in his start lane, that should remain face down till 60 seconds before the start signal (in the Mass Start the maps will be given 2 minutes before the start signal), the Maps shouldn't be turned the other way till the order 'maps' be given.

After the start signal, the athletes follow the road to the map start point marked by a flag in the terrain.

- Second and third leg:

The preceding rider on your team touches the following athlete in the change-over area, athletes then go to the start area, collect their map and start the race.

Finish procedure for Middle distance, Mass start, Long distance and Sprint
